## Colourful Fish

Thousands of colourful fish dart in and out of a \_\_\_\_\_ reef. The water is \_\_\_\_\_ and sunny, and there is plenty to eat. There are also good places to \_\_\_\_\_ from larger creatures that are looking for a meal.

Slimy \_\_\_\_\_ help a fish glide smoothly through the water.

A thin body can \_\_\_\_\_ easily into narrow hiding places.

This tuskfish has needle-sharp \_\_\_\_\_ for crunching shellfish.

Corals grow in beautiful \_\_\_\_\_ and colours.

Bright \_\_\_\_\_ make it hard for an enemy to spot a fish among the coral.
