## Birds' Nests

In spring, many birds build comfortable \_\_\_\_\_, where they lay \_\_\_\_\_. Soon the eggs hatch into hungry, noisy baby \_\_\_\_\_. The nest is home to the baby birds until they \_\_\_\_\_ strong enough to look after themselves.

Tall \_\_\_\_\_ and \_\_\_\_\_ grow around the nest.

She builds her nest near the edge of a \_\_\_\_\_.

A baby duck is called a \_\_\_\_\_

She sits on her \_\_\_\_\_ to keep them \_\_\_\_\_.

Soft, fluffy \_\_\_\_\_ line the nest.
