## Elephant

An elephant has the longest \_\_\_\_\_ in the world, but it uses its nose for more than \_\_\_\_\_! An elephant uses its nose, called a \_\_\_\_\_, for drinking water, carrying food, and making a loud noise just like a \_\_\_\_\_!

An elephant has thick, wrinkled \_\_\_\_\_. Sometimes it cracks in the hot sun.

When an elephant is hot, it flaps its huge \_\_\_\_\_ to cool down.

A flexible \_\_\_\_\_ is useful for pulling tasty twigs off trees.

An elephant \_\_\_\_\_ its food through two nostrils to find out if it's good to eat.

It is easy to dig up juicy plants with long, curved \_\_\_\_\_ like these.
