# Fish

Many people enjoy watching their pet fish swim about. Fish usually need \_\_\_\_\_ attention than other pets. But they do need just the right living \_\_\_\_\_. The big picture shows a Betta, or \_\_\_\_\_ fightingfish. Bettas cannot live together because they will fight one another.

Be sure to feed your fish only the amount of \_\_\_\_\_ it needs.

An \_\_\_\_\_ should be big enough for the fish to swim about. An adult should clean it regularly.

\_\_\_\_\_ help supply oxygen for fish.

The Betta swims with its long, waving \_\_\_\_\_ and \_\_\_\_\_.

The skin of most kinds of fish is covered with \_\_\_\_\_.

Ask your pet store owner what \_\_\_\_\_ your aquarium needs to keep your fish healthy.
