

	_
Computers are an important part of everyday use computers. Students, teachers, and use computers as learning tools. People all over the world use computers to connect to the and "talk to each other. We use computers to	
play and watch videos, too!	
Some books can be read on a computer.	
Tap and slide your fingers along the touc to look at things and move ther around.	
It's a fact!	
he computer mouse got its name because some types nave a attached to the ear part of the device, which nakes it look like a mouse! Click! A moves a pointer along the screen to tell this computer what to do.
