Frogfish

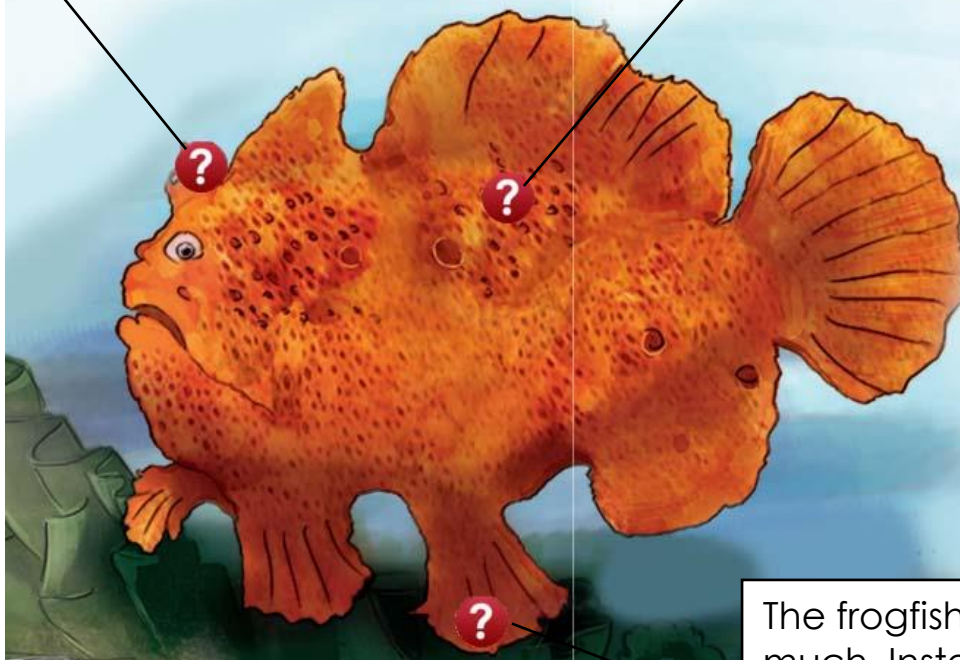

The frogfish is playing hide and seek among the _____!
The frogfish is very good at _____ in the reef. Small, colourful bumps and lumps on its _____ look just like coral. Other fish cannot tell the difference, so they swim very close – only to be _____ up by the frogfish!

A wiggly _____ between the frogfish's eyes attracts other fish. The growth looks to them like food floating in the water.

Bright _____, patterns and bumps cover the frogfish's body.

The frogfish has a _____ that can open really wide, just like a frog can!

The frogfish does not swim much. Instead, it uses its _____ like legs to slowly crawl on the coral and the ocean floor.
