

To help you complete this worksheet, use the *Weather* book.

On a cold day, \_\_\_\_\_ falls from the sky and covers the ground like a white carpet. You can make funny \_\_\_\_\_ out of fresh, wet snow. If it's freezing cold, the snow may turn into hard, slippery \_\_\_\_\_.

Water in the \_\_\_\_\_ freezes into the white snowflakes that fall gently to the ground.

The wind blows the snow into a big pile called \_\_\_\_\_.

A smiling snowman lasts for as long as the weather stays \_\_\_\_\_.

Long, sharp \_\_\_\_\_ are frozen drips of water or snow.

It's fun to make \_\_\_\_\_ in the crunchy snow!
