

To help you complete this worksheet, use the My Body book.

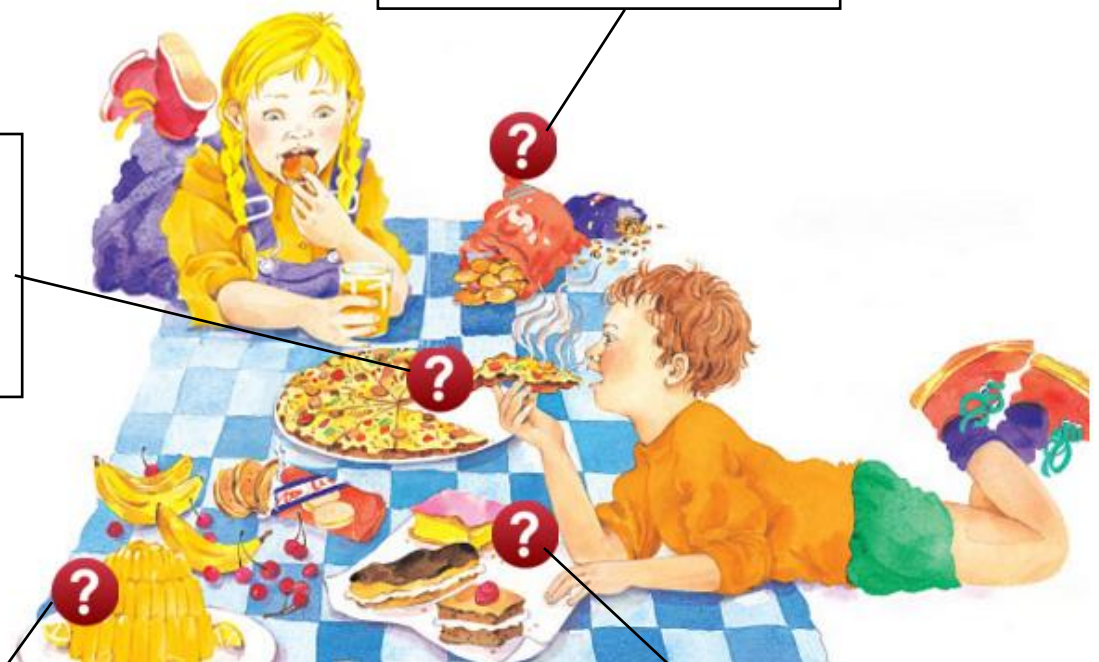

Taste and Smell

Your _____ does a special job. When you eat, it tells you if your food tastes _____ or yucky. Your nose helps, too, by catching _____ that float into the air. The smell of fresh popcorn or hot pizza can make you feel really _____.

Salty chips and peanuts can make you _____.

Steaming hot pizza _____ so good that you can't wait to eat it.

Lemons taste so _____ that eating them makes your face pucker.

Cookies and cakes are baked with lots of sugar to make them taste _____.
