## Treehouses

It's safe high up in the trees! Hungry enemies are far below on the ground. Squirrels build \_\_\_\_\_, while a noisy woodpecker drills a \_\_\_\_\_ into a thick tree trunk.

A squirrel's \_\_\_\_\_ helps it keep its balance in the treetops.

Soft \_\_\_\_\_ keeps the inside of the nest warm and cosy.

These squirrels are building their round nest on a strong \_\_\_\_\_.

Woven \_\_\_\_\_ and grass make the nest firm and strong.
