10. What tragedy occurred in December 1912 during the 1911 – 14 Australasian Antarctic Expedition?

---

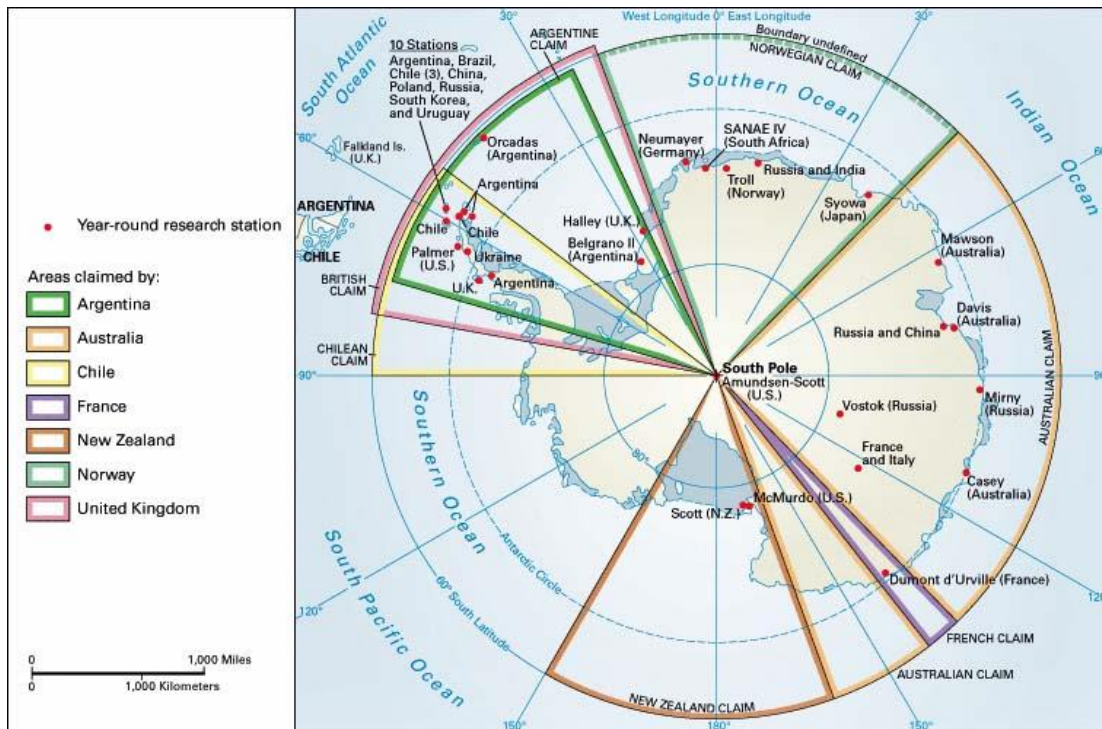

---

---

---

## ANSWER KEY:

1. Antarctica is the coldest, highest, brightest, driest, and windiest continent on Earth.
2. Vinson Massif
3. Calving
4. Sea ice
5. Scientists recorded the world's lowest temperature,  $-89.2\text{ }^{\circ}\text{C}$ , at Antarctica's Vostok Station, on July 21, 1983.
6. Adélie penguin
7. Scott and Amundsen
8. Amundsen's group arrived at the South Pole on Dec. 14, 1911. Scott's group reached the pole on Jan. 17, 1912, finding Amundsen's flag.
9. Antarctica territorial claims

10. Ninnis, who carried most of the group's supplies, fell to his death, so the two survivors, Mawson and Mertz, were left without provisions. Desperate for food, they killed and ate their sled dogs. However, the constant diet of dog liver poisoned the two men with only Mawson surviving.
