Extension Activity 1: Design your game!

Imagine that you're a game designer, and you've been hired to create the next big game for gamers your age. Create a product concept that describes your new game and all of its features. Your concept will describe what your game does and what makes it unique.

Make sure to include the following:

- Who is your target audience for your game?
- What is your game called?
- What type of gameplay will it feature?
- If you were inspired by existing games, describe what you liked about those other games.
- What makes your game different than what's already on the market?
- In your game, what is the player's goal?
- What challenges does the player have to overcome?
- What kinds of graphics will your game have?

Use this space to draw some of the characters and settings in your game.

Extension Activity 2: Design your console!

Congratulations! Your game is so popular that a major company has hired you to design an entirely new video game console. Create a product concept that describes your new console and all of its features.

- What will your console be called?
- How will it differ from current video game systems?
- Why do you think people would want to buy it?
- What will your console look like?
- How will players control games with it?

Use this space to sketch out your ideas.
