

How to set up a Personal eBooks account...

What is a personal eBooks account and do I need one?

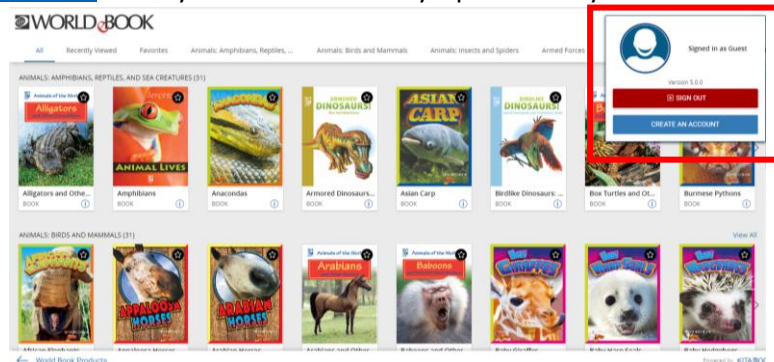

A personal eBooks account is a personal login to save your notes, bookmarks, highlights and any other edits in any of the eBooks available on World eBooks.

It is also the login details required for accessing the **World eBooks App!** So you will require an account if you wish to download and read eBooks offline via the App.

You can view eBooks without a personal eBooks account as a 'Guest'.

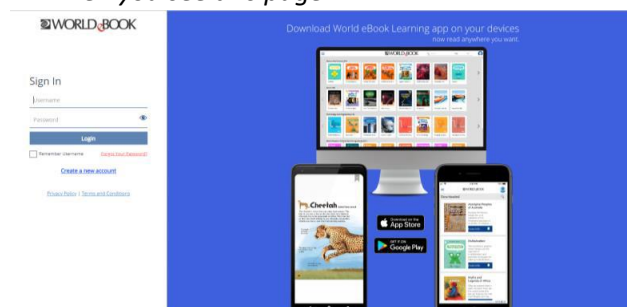

1. Login to your school or library's World Book eBook account by going to <https://www.worldbookonline.com> or via your school or library's preferred system.

2. To create an account:
Click on the Person icon in the top-right corner
Click 'Create an account'

3. This page will appear:
Fill out the form with your details and then click 'create account'

4. Once you have created an account you will be signed into your personal eBooks account in eBooks ready to save any bookmarks, notes or highlighting you make in an eBook!
If you forget to sign-in to your personal eBook account when you logon to eBooks you may be prompted to do sign in when you see this page:

Don't forget to login to your personal eBooks account to save any of your edits!
